Jakarta - confused to spend time at home during a permit together this week? There is no need to worry, because there are many activities that can be done, including playing online games together. At this time there are already many mobile multiplayer games on Android and iOS, which also support most cross-platforms. Starting from the racing game, Battle Royale, until the game that requires tricks that can be guyside with friends, even if the distance is far away. Here are 7 best multiplayer games are suitable for Mabar during a long vacation this week, as summarized by the Android authority. 1. Among USGame this must be familiar with its popularity, which rose to the stars in recent months. You can play with friends in a closed lobbi or with an unknown person in the public hall. Game collects five to 10 players on the spacecraft, but one of the players is an impostor in charge of killing other players. The other player was assigned to find out who the impostor was and removed from the spacecraft. Call of Duty: Video game for mobile device Battle Royale is usually the main choice to play together with friends. Call of Duty: Mobile has also options Royale of Battle able to collect four players in a group.GamePlay offered the same as Battle Royale game in general, where 100 players are deployed from the plan and must kill each other until a winner remains . But there are also classics called the fashion wing of duty that you can try. Crossy Roadcrossy Road is rather a simple game with an attractive 8-bit design. You play a character who has to cross the highway and the river avoiding many challenges without dying. This is a local multiplayer game, so you can play on different devices as long as it is connected to the same Wi-Fi network. Even if it's simple, Crossy Road is very effective to spend time without making bored.Pubg Mobile Photo: doc. Pub Mobile4. Pubg MobilePubg Mobile is one of the most popular games in the world and often becomes the choice for Mabar. In this game of Battle Royale you boys and 99 other players deployed for an island and fight between them until a single player remains. You can play yourself or with multiplayer mode containing four players in a group. You can choose to play with friends or other people who are not known to get new friends. Asphalt 9: The LegendSgame of Racing from Gameloft is certainly foreign. In addition to the tender with artificial intelligence, you can also play against other players with multiplayer online mode.asphalt 9: Legends also has hundreds of levels for single-player mode, so as not to get bored quickly. Also, the graph of this game is also quite good and the way to play is Simple.6. VaingloryVainglory is one of the most popular mobile games. In this game, players are divided into two groups and were assigned to take over the opposing team's headquarters. Requer the strategy to win this match, so you can communicate directly with a teammate. Or if you try first, you can also play with the bots before entering other players.7. Uno now also has a digital version that you can play with friends online. The game available for Android and iOS also has the same characteristics and rules of the physical version. Game also has tournaments and several other ways that can be selected. The UN mobile version also has 2V2 multiplayer mode that divides four players into two teams to compete with each other. Watch the video "Highlight Final Day 1 Gibr 2021" [Gambas: Video 20Detik] (VMP / Fay) Online Multiplayer game has become a common thing for today's players, including those who use mobile platforms like Android and iOS. Play online is definitely the most exciting if Together together Or other people you've never known before. The multiplayer game cannot be accessible only via PC and laptop. Because this game has now been available in many platforms, including HP and also game consoles.
